SELECTED REFERENCES
FOR THE
UINTA BASIN, UTAH

Listed by Topic

Craig D. Morgan
Utah Geological Survey

The following selected reference on the geology of the Uinta Basin is not intended to be a complete bibliography. Craig Morgan who compiled the references has not read every reference cited. Many of the references cited were taken from the reference lists of published articles and were included because the citing or reference title lead me to believe the article was applicable. This document has not be reviewed or approved for publication by the Utah Geological Survey.

GUIDEBOOKS, TEXT BOOKS, AND PUBLISHED REPORTS

Department of the Interior, Bureau of Land Management, Vernal District, 1993, Diamond Mountain Resource area, resource management plan and environmental impact plan, volume I and II.

Flint, S., and Bryant, I., editors, 1993, Quantitative modeling of clastic hydrocarbon reservoirs and outcrop analogues: International Association of Sedimentologists Special Publication 15, p.

STRATIGRAPHY AND PETROLOGY

Uinta Basin

Dyni, J.R., and Goodwin, J.C., 1972, AAPG field trip roadlog--Vernal, Utah to Rio Blanco, Colorado, in Tertiary and Cretaceous resources of the Southern Rocky Mountains: Mountain Geologist,

---1995b, Reservoir characterization through facies analysis of the lower Green River Formation for
hydrocarbon production enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: Physical and Mathematical Sciences and the Central Utah Section of the American Chemical Society Ninth Annual Spring Research Conference Program with Abstracts.

Peterson, A.R., 1953, Paleoenvironments of the Colton Formation Colton, Utah: Brigham Young
Peterson, P.R., 1975, Lithologic logs and correlation of coreholes, P.R. Spring and Hill Creek oil-impregnated sandstone deposits, Uintah County, Utah: Utah Geological and Mineralogical Survey Report of Investigations 100, 30 p.

---1971, Petrographic criteria for recognition of lacustrine and fluvial sandstone, P.R. Spring oil-impregnated sandstone area, southeast Uinta Basin, Utah: Utah Geological and Mineralogical
Survey Special Studies 36, 24 p.

---1972a, Paleoenvironmental reconstructions in an area of rapid facies change, Parachute Creek Member of Green River Formation (Eocene), Uinta Basin, Utah: Geological Society of America Bulletin, v. 83, no. 9, p. 2689-2708.

Ray, E.S., 1985, Diagenesis of sandstones from the Douglas Creek Member of the Green River Formation (Eocene) at Red Wash field, Uintah County, Utah: M.S. thesis, Texas A & M University.

Swain, F.M., 1956, Early Tertiary ostracod zones of Uinta Basin in Peterson, J.A., editor, Geology

Wegner, MaryBeth, 1995, Facies analysis of well cores from the lower Green River Formation, Bluebell field, Uinta Basin, Utah: implications for identifying highly productive zones: Physical and Mathematical Sciences and the Central Utah Section of the American Chemical Society Ninth Annual Spring Research Conference Program with Abstracts.

Yen, Fu-Su, 1974, Correlation of tuff layers in the Green River Formation, Utah, using biotite compositions: Utah University Masters thesis.

Analogous Areas

STRUCTURE

McCoy, R.M., Havertz, M.J., Clem, Keith, Brandt, Cynthia, and Young, Stephen, 1986, Associations among lineaments, subsurface fractures, hydrocarbon microseepage, and production in the Uinta Basin, Utah: Remote sensing for exploration geology, the Fifth Thematic Conference proceedings, p. 117-125.

Tweto, Ogden, 1975, Laramide (Late Cretaceous-early Tertiary) orogeny in the southern Rocky Mountains, in Curtis, B.F., editor, Cenozoic history of the southern Rocky Mountains: Geologic Society of America Memoir 144, p. 1-44.

CORE AND GEOPHYSICAL LOGS

Craft, Milton, and Keelan, Dare, 1985, Coring, part 7 - analytical aspects of sidewall coring: World Oil, Sept., p. 77-90.

Peterson, P.R., 1975, Lithologic logs and correlation of coreholes, P.R. Spring and Hill Creek oil-impregnated sandstone deposits, Uintah County, Utah: Utah Geological and Mineralogical Survey Report of Investigations 100, 30 p.

Wegner, MaryBeth, 1995, Facies analysis of well cores from the lower Green River Formation, Bluebell field, Uinta Basin, Utah: implications for identifying highly productive zones: Physical and Mathematical Sciences and the Central Utah Section of the American Chemical Society Ninth Annual Spring Research Conference Program with Abstracts.

OIL AND GAS (GENERAL)

Chidsey, T.C., Jr., 1993a, Uinta Basin [UN] plays - overview, in Robertson, J.M., and Broadhead, R.F., project directors, Atlas of major Rocky Mountain gas reservoirs: New Mexico Bureau

GEOCHEMISTRY

Nuccio, V.F., and Johnson, R.C., 1986, Thermal maturity map of the lower part of the Upper Cretaceous Mesaverde Group, Uinta Basin, Utah: U.S. Geological Survey Miscellaneous Field
Studies Map MF-1842, one plate.

Fouch, T.D., 1981, Distribution of rock types, lithologic groups, and interpreted depositional environments for some lower Tertiary and Upper Cretaceous rocks from outcrops at Willow Creek - Indian Canyon through the subsurface of Duchesne and Altamont oil fields, southwest to north-central parts of the Uinta Basin, Utah: U.S. Geological Survey Oil and Gas Investigations Map, Chart OC-81, 2 sheets.

Morgan, C.D., 1994, Oil and gas production maps of the Bluebell field, Duchesne and Uintah Counties, Utah: Utah Geological Survey Oil and Gas Field Study 15, 4p., 7 plates, scale 1 inch = 0.8 miles.

Nuccio, V.F., and Johnson, R.C., 1988, Surface vitrinite-reflectance map of the Uinta, Piceance, and

----1994, Green River Formation waterflood demonstration project, Uinta Basin, Utah, in U.S. Department of Energy contracts for field projects and supporting research on enhanced oil recovery: Progress Report No. 74, p. 141-144.

Spath, J.B., Erdal, Ozkan, and Raghavan, Rajagopal, 1994, An efficient algorithm for computation of well responses in commingled reservoirs: Society of Petroleum Engineers Formation
DRILLING AND COMPLETION

Abass, H.H., 1995, Oriented perforating helps ensure successful well completions: Oil and Gas Journal v. 93, no. 41, p. 80-85.

PRODUCTION

Baud, Wayne, and Eastlund, Bernard, 1994, Electric tubing heater improves well production in CO$_2$ flood: Oil & Gas Journal, v. 92, no. 16, p. 60-61.

Jacobs, I.C., Chemical treatments for the control of asphaltene sludge during oil well acidizing treatments: Society of Petroleum Engineers Paper 18475.

Newberry, M.E., and Barker, K.M., , Formation damage prevention through the control of paraffin and asphaltene deposition: Society of Petroleum Engineers paper 13796.

GROUND WATER

OIL SHALE

Burnham, A. K., and Singleton, M. F., 1983, High-pressure pyrolysis of Green River oil shale in Geochemistry and chemistry of oil shales (Miknis, F. P., and others, editors.): American

Cole, R. D., 1975, Sedimentology and sulfur isotope geochemistry of Green River Formation
